1. What the bills come to

Average month \$11,448.69	Heaviest month \$13,090.85	Lightest month \$10,379.80	Twelve-month total \$137,384.26
-------------------------------------	--------------------------------------	--------------------------------------	---

Across September 2026 to August 2027 the 41 active obligations in bills.json come to \$137,384.26, an average of \$11,448.69 a month. The months are not alike: May carries \$13,090.85 and July \$10,379.80, a spread of \$2,711.05. That spread is the point of the month-by-month tables in sections 3 and 4 - a single monthly figure is right on average and wrong in almost every individual month.

\$792.52 of that month is deliberate headroom, not a bill anyone sends

9 variable bills are carried at the highest amount ever seen rather than the usual one, because a bill that lands monthly or less often arrives once and has to be covered at its worst. Culligan is the clearest case: \$40.39 most months, \$307.70 when the salt delivery lands, and it is the \$307.70 that is budgeted. At the usual amounts these same bills would run \$10,656.17 a month instead of \$11,448.69. Neither figure is wrong - plan against \$11,448.69, expect to spend nearer \$10,656.17. Section 5 lists every bill this applies to.

The lines usually asked for

	Per month	Per year	Share
Mortgage	\$3,903.51	\$46,842.12	34.1%
Utilities - all	\$1,400.43	\$16,805.14	12.2%
Gas - heating (Elizabethtown)	\$217.24	\$2,606.90	1.9%
Electric (JCP&L)	\$255.51	\$3,066.12	2.2%
Water, sewer and trash	\$371.48	\$4,457.72	3.2%
Phone, internet and TV	\$248.50	\$2,982.00	2.2%
Other utilities (Culligan)	\$307.70	\$3,692.40	2.7%
Fuel - vehicles	\$393.34	\$4,720.04	3.4%
Groceries	\$1,382.72	\$16,592.68	12.1%
Car payments (Kia, CCU)	\$1,049.55	\$12,594.60	9.2%
Insurance	\$513.27	\$6,159.24	4.5%
Loans	\$1,196.28	\$14,355.36	10.4%
Credit cards & store accounts	\$798.78	\$9,585.36	7.0%
Taxes	\$217.00	\$2,604.00	1.9%
Medical & dental	\$400.00	\$4,800.00	3.5%
Kids & activities	\$172.50	\$2,070.00	1.5%
Subscriptions	\$21.31	\$255.72	0.2%
Everything else - miscellaneous (none: every bill is named ab...	\$0.00	\$0.00	0.0%
TOTAL - everything	\$11,448.69	\$137,384.26	100.0%

Indented lines are part of the utilities line above them, not additions to it. "Everything else" is the residual - the grand total less every line named above - so the block adds to the total exactly.

5 - discretionary	5	\$591.01	\$7,092.12	5.2%

Tiers come from bills.json and drive deferral advice elsewhere in the system; they are reproduced here so the discretionary share of the month is visible at a glance.

2. Every bill, by category

Per month is the twelve-month total divided by twelve, so a quarterly or annual bill shows its true monthly cost rather than the amount of one instalment. Occurrences is how many times the bill actually lands in the 12 months - the figure that makes a biweekly mortgage or a weekly shop add up correctly.

Housing - \$3,903.51 a month, \$46,842.12 a year

Bill	Amount	How it recurs	Next due	Occ.	Per month	Per year
Mortgage	\$1,801.62	Every 2 weeks (26 a year)	21 Sep	26	\$3,903.51	\$46,842.12

Subscriptions subtotal					\$21.31	\$255.72

A bill showing zero occurrences is still active in the file, but its own window closes or opens outside these twelve months - a loan in its final instalments, or one that a successor entry takes over. It is listed rather than hidden so the handover between the two entries is visible.

* marks a bill whose amount moves month to month. For those, the figure shown is what the engine forecasts: a month-by-month profile where bills.json holds one, otherwise the observed maximum for bills that land monthly or less often, and the historical mean for frequent draws like the weekly shop, which average out.

3. Month by month, by category

The shape of the year. Seasonal utilities, quarterly water, the annual sewer bill and the four lacrosse instalments all land in particular months, and this is where they are visible.

A dash means the bill does not land in that month at all.

5. What is not counted, and what to check

Inactive - held in the file, excluded from every figure above

Bill	Amount	How it recurred	Why it is inactive
Affirm large	\$373.13	Monthly, 29th	PAID OFF - confirmed by the household 11 Aug 2026. Ran 05/01, 06/12 and 06/29/2026 at \$373.13. Deactivated, not deleted. The separate \$73.07 monthly Affirm (id 'affirm') is unaffected and still active.
Trilogy Lacrosse	\$100.00	Monthly, 4th	ENDED - confirmed by the household 11 Aug 2026. Ran \$100/month Jan-May 2026, plus \$225.00 on 12/10/2025. Deactivated, not deleted.

Flagged for review

Bill	Per month	What is flagged
Mortgage	\$3,903.51	CORRECTED from semimonthly to biweekly. 15 consecutive payments 12/15/2025-06/29/2026 are exactly 14 days apart. Semimonthly modelled 24/yr; biweekly is 26/yr, a \$3,603.24/yr difference. Extra same-week entries in the statements are failed-payment retries, not additional payments.
Kia	\$742.65	Amount corrected from \$578.64. Actually recurs every 28 days (05/04, 06/01, 06/29), not monthly, so it drifts earlier and yields 13 payments in some years. due_day 24 tracks the next two occurrences; revisit each quarter.
PNC	\$150.00	Varies \$70.00-\$150.00 and the date moves. \$70.00 is the recent floor.
Comenity	\$65.00	Irregular: 12/16, 02/03, 03/13, 05/05, 06/12, amounts \$40.00-\$65.00. Not on the household sheet.
Culligan	\$307.70	Base \$40.39, but 01/05 was \$307.70 and 04/06 was \$143.39 - likely periodic salt or service deliveries on top.
Republic trash Q4	\$14.78	CORRECTED from biweekly \$92.00 to QUARTERLY \$177.30. Observed 01/07 \$168.12 and 04/07 \$177.30, exactly 90 days apart. Modelled as dated one-offs because the schema has no quarterly frequency.
Republic trash Q1	\$14.78	See trash. Next quarterly instalment.
Sewer	\$25.38	POSSIBLY ANNUAL, UNCONFIRMED - the household does not yet know. No matching payment appears in 19 months of statements, including the September window. Left active at \$304.50 on 1 Sep so it is budgeted for rather than forgotten.
Upstart past bills (from Sep)	\$337.61	Steps up from \$86.46 on 24 Sep 2026 per the household. The household said the reduced rate ran 'two months'; if that means it ends after 24 Aug rather than 24 Sep, this start date is a month late and the forecast is optimistic by \$251.15 for September. Confirm.
Town of Clinton water	\$291.18	Actual annual spend: 2022 \$1,088.42, 2023 \$1,121.76, 2024 \$1,318.11 (mean \$1,176.10). Billed irregularly - between two and five payments a year, not on a fixed date - so this is the annual mean spread over four quarters rather than a real due date.
IRS state	\$114.00	New, \$114.00/month, per the household. Due day assumed the same as the federal instalment; confirm. Not yet visible in any statement.
Loew & Patel braces	\$400.00	SCHEDULE UNKNOWN - flagged, not guessed. The statements show \$1,000.00 on 06/10/2026, \$129.47 on 04/29 and 06/24, and smaller amounts through the spring. No pattern is derivable. Held at the household's \$400.00/month placeholder. observed_max is deliberately NOT set: with it, the engine forecast the one-off \$1,000.00 every month, stacking a worst-case rule on top of a figure that was already a guess. Replace the whole entry once Loew & Patel confirm the remaining schedule.

Bill	Per month	What is flagged
JCP&L past due (deferred 3 Sep)	\$31.19	Added 11 Sep 2026. The 3 Sep electric payment was deferred, so it dropped out of the forecast once the date passed - the money is still owed. Carried back in as a one-off dated 15 Sep. AMOUNT IS THE MODELLED SEPTEMBER FIGURE (\$374.22 from the month-of-year profile), not a figure read off a bill: the real past-due balance may be higher and may carry a late fee. Replace it with the amount on the JCP&L statement and clear needs_review. This is in ADDITION to the recurring 3 Oct occurrence.
Sewer past due (deferred 1 Sep)	\$25.38	Added 11 Sep 2026. The 1 Sep sewer payment was deferred and the date has since passed, so it left the forecast while still being owed. Carried back in as a one-off dated 15 Sep at the configured \$304.50. That figure is itself unconfirmed - the only sewer payment in 36 months of statements is \$135.00 in Sep 2023 - so check the bill before paying and clear needs_review. The annual 'sewer' entry still stands for 1 Sep 2027.

Amounts that are estimates, not fixed figures

Bill	Per month	Confidence	Range seen in the statements
Capital One CC	\$163.00	medium	\$154.00 - \$163.00
Chase CC Amazon	\$136.00	medium	\$124.00 - \$136.00
Lowes	\$126.00	medium	\$122.00 - \$126.00
Home Depot	\$100.00	low	\$32.70 - \$100.00
Chase CC United	\$88.00	medium	\$76.00 - \$88.00
PNC	\$150.00	low	\$70.00 - \$150.00
Barclay Old Navy	\$84.78	low	\$52.98 - \$84.78
Comenity	\$65.00	low	\$40.00 - \$65.00
Culligan	\$307.70	low	\$40.39 - \$307.70
Republic trash Q4	\$14.78	medium	\$168.12 - \$177.30
Republic trash Q1	\$14.78	medium	\$168.12 - \$177.30
Town of Clinton water	\$291.18	medium	\$294.03 - \$873.53
Groceries	\$1,382.72	medium	\$12.78 - \$791.32
Fuel	\$393.34	medium	\$20.00 - \$447.12
Loew & Patel braces	\$400.00	low	SCHEDULE UNKNOWN - flagged, not guessed. The statements show \$1,000.00 on 06/10/2026, \$129.47 on 04/29 and 06/24, and smaller amounts through the spring. Barclay Old Navy	\$60.74	\$84.78	12	\$84.78	\$60.74	\$288.48
Comenity	\$50.00	\$65.00	12	\$65.00	\$50.00	\$180.00
TOTAL margin				\$792.52		\$9,510.20

This rule is the forecasting engine's, not this report's, and it is applied only to bills landing monthly or less often. Frequent draws such as the weekly shop use the historical mean instead, because applying a worst week to every week of the year compounds into a figure no household ever spends.

Method

- Every figure is built by expanding each bill's real occurrence dates across the twelve calendar months and adding up what falls in each one. Nothing is annualised by multiplying a weekly or biweekly amount by a rounded factor.
- A due date that falls on a weekend is counted on that date. Nothing is shifted to the next working day, because shifting it would make the month look lighter than it is.
- Seasonal bills use the month-by-month profile recorded in bills.json where there is one, so gas is heavy in winter and electric in summer rather than flat all year.
- This report is a statement of obligations only. It carries no balance, no income and no forecast - the cash-flow audit is the report for those.
